, a 40-item list of products from five different companies. According to JCP&L's press release, the blended-rate plan calls for a decrease of one cent in the per kWh rate for every 10% increase in distributed generation (for example, a 5% decrease in the per kWh rate for every 50% increase in distributed generation). JCP&L's press release says that the rate is available to all customers, including micro-generation. JCP&L says that for the November billing cycle, the 40-item vendor list includes three items from each of these five companies: 487 from Green Mountain Energy, 369 from Enel Green Power, 245 from Unitil, 191 from NIPSCO, and 207 from Princeton Energy. The blended rate is calculated and submitted by JCP&L's utility operations center to PJM, which operates the market. PJM calculates the rate to reflect changes in wholesale market prices and other factors. A variety of rate plans are available to PJM's customers. PJM currently has a variety of different rates available for its

customers, including a tiered rate that has tiers of rates based on consumption. Anyone interested in the blended rate can contact JCP&L at 800-367-3821, Ext. 14690, or visit the company's website at www.jcleanpower.com. *Abbreviations: CT* computed tomography, *DM* diabetes mellitus, *HDL* high density lipoprotein, *LDL* low density lipoprotein, *R*~*f*~ free flurbiprofen, *T*~*max*~ time to maximum absorption All four patients treated with free flurbiprofen recovered uneventfully. In three cases, the analgesic effect of flurbiprofen was sufficient to enable the patients to move without pain, and none of the patients were re-administered flurbiprofen or required any other analgesia. One patient treated with free flurbiprofen and one treated with flurbiprofen plus ibuprofen recovered from envenomation with no apparent complications. The patient receiving ibuprofen alone did not receive any further treatment, presumably because of her milder symptoms. Discussion {#Sec4}
===== The purpose of this study was to compare the pharmacokinetics and clinical efficacy of flurbiprofen in free and
